## Heise Model HTP1 High Pressure Hand Operated Hydraulic Pump

Range: 0-10,000 psi

*Includes:*

- Vernier control for fine adjustment
- Operates with water or oil
- 2 ¼ NPT hose ports

*Optional Hose Kit:*

- 2 heavy duty, flexible hoses
- Quick connect, self-sealing hose ends
- 2 adapters with ⅛ NPT male
- 1 adapter with ¼ NPT male

*Optional Carrying Case:*

- Plastic case
- Die cut foam insert

The HTP1 offers solid construction for safe and easy high pressure generation. The optional hose kit maximizes convenience and utility while serving to limit instability due to adiabatic heating.
